

Transfer Information

Transfers at time of Registration: Montadales sold before they are registered must be registered in the seller's name and then transferred to the new owner incurring appropriate charges for both transactions. When registering lambs which have been sold, the seller completes Column 6. The buyer's name will then be listed as the owner on the front of the Certificate of Registry and the date of transfer will show as the date recorded.

Transfers for previously registered Montadales: Owner completes transfer portion on the back of the registration certificate. Give buyer's full name and complete mailing address. For ewes bred at time of sale, supply the Association No. if the ram which serviced them. A new registration paper will be printed with the new owner's name on the front. A complete history of ownership appears on the back.

Transfers are mailed to the new owner directly from the M.S.B.A. office, not back to the Seller.

First-time buyers will receive a membership package, registry applications, and supplemental information.

All Transfers must be mailed in and paid for by the Seller. Transfers sent in by the Buyer will not be processed.

*In the following fee schedule are basic rates for paying with check or money order.
Credit card and PayPal fees will be slightly higher.*
